

## DAHLE MHP Oil Free Type IIIB

Dahle Oil-Free MHP Shredders are not only convenient to use and economical to maintain, but also easier on the environment. No oil is required for powerful, jam resistant shredding. Plus, MHP features Smart Power automatic shut down and a lifetime warranty on the cylinders.

Oil free shredding is made possible by the hybrid Matrix High Performance (MHP) cutting cylinders. Aggressive cutting edges are fused to a solid steel shaft, creating an incredibly strong bond, and providing superior shredding capabilities. The cylinders' Trident Grip design produces three continuous points of contact with the paper, pulling it straight through. This smooth, even pull prevents the paper from becoming wedged to either side, providing unprecedented jam protection.
